Professional Summary

Full Stack Developer with 1+ year of professional experience in building, optimizing, and maintaining dynamic web applications using PHP, Laravel, ReactJS, and Java. Experienced in both front-end and back-end development with a strong understanding of MVC architecture, RESTful APIs, and modern web frameworks. Proven ability to implement AI automation and enterprise-level systems to enhance productivity and performance. Skilled in building AI-driven systems leveraging the OpenAI API and modern full stack technologies.

Technical Skills

• Programming Languages: PHP, Laravel, Java, ReactJS, JavaScript, HTML, CSS
• Databases: MySQL, MongoDB, Oracle
• Tools: Git, VS Code, Postman, Netlify
• Core Competencies: Full Stack Development, API Integration, AI Automation, MVC Architecture, Agile Methodology

Professional Experience

Handy Solver, Gurgaon — Junior Web Developer (06/2023 – Present)
• Engineered and deployed AI-driven automation for task creation, streamlining project workflows and reducing manual intervention.
• Developed and maintained multiple enterprise-grade modules including Admin Panel, HRM (Human Resource Management), CRM (Customer Relationship Management), and PMS (Performance Management System).
• Improved dashboard efficiency by 25% through optimized PHP (Yii2) logic and ReactJS UI enhancements.
• Designed interactive onboarding screens and reusable ReactJS components to enhance user experience.
• Collaborated with cross-functional teams to integrate HRM, CRM, and PMS modules into a unified platform.
• Optimized SQL queries and database schemas, improving data retrieval performance by 15%.
• Contributed to full-cycle development, from system architecture design to deployment and maintenance.

Koskill, Bengaluru — Full Stack Developer Intern (09/2022 – 06/2023)
• Built responsive UIs using ReactJS and optimized web application performance.

• Developed backend APIs and database operations using PHP and MySQL.
• Utilized Git for version control and collaborated in agile team environments.

Projects

• Education Website (Java Full Stack): Comprehensive online learning platform — https://tourmaline-axolotl-5d6478.netlify.app/
• Academy Website (Laravel): Academic management system with multi-user functionality.
• Netflix Clone (ReactJS): Movie and TV streaming app with secure user authentication.

- • Developed AI-driven task automation using the OpenAI API with predictive logic for smart task creation and auto-allocation, reducing manual workload by 30% and optimizing team productivity.

Education

 B.Tech in Electronics & Communication Engineering — Chandigarh Group of Colleges, Landran (2023)
 Intermediate (Non-Medical) — PKR Jain Sr. Sec. School (2019)
 Matriculation — Kendriya Vidyalaya No.2 (2017)

Certifications

• Certified Full Stack Java Developer
• Complete ReactJS Course (Udemy)
• JavaScript Programming (Udemy)
• Artificial Intelligence & Machine Learning — Eureka Electrosoft Solutions Pvt. Ltd., Mohali
