## Professional Summary

Results-driven Full Stack Developer with 1 year and 3 months of experience in designing, developing, and deploying scalable applications using PHP, Laravel, ReactJS, and Java. Specialized in implementing AI-driven automation, API integrations, and enterprise solutions including HRM, CRM, and PMS modules. Adept at solving complex technical problems, optimizing performance, and delivering high-quality software aligned with business objectives. Skilled in building AI-driven systems leveraging the OpenAI API and modern full stack technologies.

## Core Skills

- Frontend: ReactJS, HTML5, CSS3, JavaScript, jQuery
- Backend: PHP (Laravel, Yii2), Node.js (Basics), Java
- Database: MySQL, MongoDB, Oracle
- Tools: Git, VS Code, Postman, Netlify, Figma
- Concepts: MVC, RESTful APIs, Agile, AI Automation, Full Stack Development
- Soft Skills: Team Collaboration, Problem Solving, Analytical Thinking

## Professional Experience

Handy Solver, Gurgaon — Junior Web Developer (06/2023 – Present)

- Engineered and deployed AI-driven automation for task creation, streamlining project workflows and reducing manual intervention.
- Developed and maintained multiple enterprise-grade modules including Admin Panel, HRM (Human Resource Management), CRM (Customer Relationship Management), and PMS (Performance Management System).
- Improved dashboard efficiency by 25% through optimized PHP (Yii2) logic and ReactJS UI enhancements.
- Designed interactive onboarding screens and reusable ReactJS components to enhance user experience.
- Collaborated with cross-functional teams to integrate HRM, CRM, and PMS modules into a unified platform.
- Optimized SQL queries and database schemas, improving data retrieval performance by 15%.
- Contributed to full-cycle development, from system architecture design to deployment and maintenance.

Koskill, Bengaluru — Full Stack Developer Intern (09/2022 – 06/2023)

- Contributed to responsive front-end development using ReactJS and JavaScript.

• Designed backend logic with PHP and integrated APIs for seamless data communication.
• Assisted in project deployment on Netlify and maintained Git repositories.
• Participated in sprint meetings to enhance agile team collaboration and timely delivery.

## Academic Projects

• Education Website (Java Full Stack): Comprehensive e-learning platform for students and faculty. Deployed on Netlify — https://tourmaline-axolotl-5d6478.netlify.app/

• Academy Website (PHP Laravel): Multi-user academic portal managing content, attendance, and dashboards.

• Netflix Clone (ReactJS): Built dynamic video streaming front-end with authentication and user sessions.

- • Developed AI-driven task automation using the OpenAI API with predictive logic for smart task creation and auto-allocation, reducing manual workload by 30% and optimizing team productivity.

## Education

 Bachelor of Technology (B.Tech) — Electronics & Communication Engineering
Chandigarh Group of Colleges, Landran | 2023

 Intermediate (Non-Medical) — PKR Jain Sr. Sec. School | 2019
 Matriculation — Kendriya Vidyalaya No.2 | 2017

## Certifications

• Certified Full Stack Java Developer
• Complete ReactJS Course (Udemy)
• JavaScript Programming (Udemy)
• Artificial Intelligence & Machine Learning — Eureka Electrosoft Solutions Pvt. Ltd., Mohali
• Python Programming (Udemy)

## Achievements & Participation

• Participated in National Science Day organized by ECE Department.
• Worked on IoT project using Raspberry Pi with wireless devices.
• Recognized for developing an internal student management system prototype.
